## **LOCAL ENVIRONMENTAL PLUMBING ENGINEERING FIRM NAMED FINALIST IN GREENPLUMBING AWARDS**

A local environmental plumbing engineering firm has been named a finalist at the national *GreenPlumbers*® Awards – an industry showcase of environmentally-conscious products and services for the plumbing industry.

Warren Perrett and his company Aquablock Plumbing have completed over 350 domestic environmental/solar plumbing jobs this year as a move towards reducing water and energy consumption.

Aquablock is also an agent for ground breaking green plumbing products including Inc Nubian, Envirowater and Eco-Nova black and grey water treatment systems.

Warren has been named as a finalist for the prestigious *GreenPlumber* of the Year award, the highest accolade awarded at the event. Winners of the 2007 *GreenPlumbers*® Awards will be announced at an awards luncheon to be held in Melbourne on Tuesday 20 November 2007.

*GreenPlumbers*® is an innovative training and accreditation initiative developed by the Master Plumbers' and Mechanical Services Association of Australia (MPMSAA) as the gateway to a 'green' plumbing business.

The *GreenPlumbers*® Awards are a way for the Association to acknowledge the contributions made to the environment by individual plumbers and manufacturers.

So far the *GreenPlumbers* training program has saved Australia more than 3 billion litres of water, equivalent to 4700 Olympic-sized swimming pools and millions of dollars in energy savings.

Warren says the company set up training programs for all the staff at Aquablock in an effort to become a leader in green plumbing.

“The training programs were set up to help with the new direction and we recently hired a specialised company to help us achieve our goal of becoming a national leader in the green plumbing field,” says Warren.

“Our internet site has also been changed to reflect this, and now serves to educate our clients about sustainable plumbing options that Aquablock can assist them with.
