

FREE TRAINING WORKSHOP

Low Emissions Hot Water Systems

The Master Plumbers' & Mechanical Services Association of Australia with the support of the Department of Environment, Water, Heritage and the Arts (DEWHA) are proud to invite you to a free nationally accredited workshop in "Low emissions hot water systems".

It is proposed:

During 2010, electric hot water systems will no longer be able to be installed in:

- any new detached, terraced and town houses; and
- any existing detached, terraced and town houses that have access to piped gas, except where an exemption applies.

During 2012, electric hot water systems will no longer be able to be installed in:

- any existing detached, terraced and town houses; and
- any new flats and apartments with access to piped gas, except where an exemption applies.

For further information please visit www.environment.gov.au/settlements/energyefficiency/index.html

What does this mean?

This means that plumbing practitioners will need to be aware of the various low emission technologies available and their installation in order to address these new requirements. The workshops being offered have been designed to give plumbing practitioners this knowledge.

These 4 hour nationally accredited workshops cover topics in the areas of:

- Low emissions hot water technologies such as solar hot water, gas hot water and heat pumps
- Federal and State rebates that are available
- Installation techniques

Course participants will receive a certificate upon completion of the course.

Who can attend?

The workshop is aimed at licensed plumbers however everyone is welcome to attend. Although a Statement of Attainment will be issued upon successful completion of the course, only a licensed plumber may perform plumbing work depending on your state regulations.

What does it cost?

All workshops are free to attend!

How to register

Refer to the attached schedule to locate your nearest workshop and complete the registration form and fax back to:

Queensland: (07) 3273 0873
All Other States: (03) 9927 5899
